# Hands-on workshops for bedside ultrasound in emergency medicine

ICEP presents two interactive course options -- choose based on your experience:

## BASIC COURSE

**TARGET AUDIENCE:** Physicians with limited or minimal experience, seeking both didactic lectures and hands-on practice on ultrasound techniques

## FAST TRACK COURSE

**TARGET AUDIENCE:** Physicians with prior ultrasound experience seeking hands-on practice only. The Fast Track Course does not include didactic lectures but puts you hands-on at skill stations the entire course to maximize practice.

Prior ultrasound experience or completion of ICEP's Basic Course is required for registration.

## Program Objectives

- To provide didactic instruction and hands-on practice on the principles of emergency bedside ultrasound
- To demonstrate the use of bedside ultrasound to diagnose acute life-threatening conditions, guide invasive procedures, treat emergency medical conditions, and improve the care of emergency department patients
