ICEP's Oral Board Review courses meet the needs of emergency physicians preparing to take the Oral Board Exam in Emergency Medicine.

Two powerful options to prepare you for your Boards:

Core Review Plus - The 10-Hour Course

- The most intensive preparation for the exam, with detailed strategies and pro tips for effective exam technique, note-taking, and organizational methods
- Extra information and training to help you better understand the exam process, including the eOral, and build confidence
- Start with seven cases in which you'll interact with other course registrants and faculty, taking turns in the role of examiner, examinee and performance critic
- Practice six single and two multiple patient encounters one-on-one, and receive immediate feedback about your performance and how to improve it

Core Review - The 6-Hour Course

- Start with a briefing on the exam, including the eOral; exam techniques; note-taking; and organizational tips
- Move into a strict simulation of the actual oral examination
- Practice six single and two multiple patient encounters one-on-one, and receive immediate feedback about your performance and how to improve it

No duplicate cases presented!

Introducing the eOral System!

ICEP is proud to be one of the few programs offering practice and preparation on the eOral system used by ABEM for the board exam.

Build confidence and skills on the interactive digital interface that includes:

- **Dynamic vital signs and rhythm strip**
- **Digital images, animations and videos**
- **Test ordering and review**

Every participant will experience two single-case encounters on the eOral system at ICEP's courses.

Preview the program with sample case online at ICEP.org/oralboard

The Illinois College of Emergency Physicians (ICEP) has been granted a sub-license for use of eOral software identical to that used for the ABEM Oral Certification Examination. Case content is entirely that of ICEP.
