FACULTY

Jeffrey A Sosman, MD
Professor of Medicine, Hematology and Medical Oncology
Northwestern Medicine
Robert H. Lurie Comprehensive Cancer Center of Northwestern University
Chicago, IL

LEARNING OBJECTIVES

- Discuss the effects of ICI therapy on immune system cells that lead to irAEs in patients with cancer seen by emergency physicians
- Describe the role of emergency physicians in the recognition of signs and symptoms of ICI irAEs and their management in patients with cancer
- Review strategies to overcome barriers to the implementation of necessary practice changes for emergency physicians seeing cancer patients with ICI irAEs

TARGET AUDIENCE

Emergency-department physicians and other healthcare professionals working as part of the multidisciplinary care team

DISCLOSURE POLICY STATEMENT

In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for Commercial Support, educational programs sponsored by Med Learning Group must demonstrate balance, independence, objectivity, and scientific rigor. All faculty, authors, editors, staff, and planning committee members participating in a MLG-sponsored activity are required to disclose any relevant financial interest or other relationship with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services that are discussed in an educational activity.

DISCLOSURE OF UNLABELED USE

Med Learning Group requires that faculty participating in any CME activity disclose to the audience when discussing any unlabeled or investigational use of any commercial product or device not yet approved for use in the United States.

DISCLAIMER

Med Learning Group makes every effort to develop CME activities that are scientifically based. This activity is designed for educational purposes. Participants have a responsibility to utilize this information to enhance their professional development in an effort to improve patient outcomes. Conclusions drawn by the participants should be derived from careful consideration of all available scientific information. The participant should use his/her clinical judgment, knowledge, experience, and diagnostic decision-making before applying any information, whether provided here or by others, for any professional use.
