

RESIDENCY:

The University of Texas Southwestern Medical Center

FELLOWSHIP:

University of Washington

Cedric Spak, MD, MPH

Dr Cedric Spak is based in Dallas-Fort Worth, Texas, and specializes in infectious diseases at Texas Centers for Infectious Disease Associates. With over 15 years of experience in this branch of medical practice, he has become adept at dealing with cases marked by high complexity and severity.

After attending medical school at The University of Texas Southwestern Medical Center (UT Southwestern), Dr Spak began a residency in internal medicine at Parkland Memorial Hospital and UT Southwestern in 2002. This was followed by a fellowship at the University of Washington, where he also earned a master's of public health in epidemiology. During this time, he helped establish an AIDS clinic in South Africa and became one of few to complete an additional year in fellowship training, during which he focused on transplant infectious diseases. He is fluent in Spanish, Polish, and German.
