Doug Johnson - Senior Immuno Hospital Account Executive
doug.johnson@diasorin.com

DiaSorin is a global leader in the laboratory diagnostics market, specializing in the immunodiagnostics and molecular diagnostics segments. For over 50 years we have been dealing with diagnostics to help physicians and patients make better decisions in the most important moments. Diagnosis is, in fact, the first step to become aware of a person's state of health: this is why our tests can make the difference.
