CONTINUING MEDICAL EDUCATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Emergency Physicians and the Illinois College of Emergency Physicians. The American College of Emergency Physicians is accredited by the ACCME to provide continuing medical education for physicians.

The American College of Emergency Physicians designates this live activity for a maximum of 10.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Approved by the American College of Emergency Physicians for a maximum of 10.75 hours of ACEP Category I credit.

This course provides 2 hours of trauma topics. The Illinois Emergency Medical Services and Trauma code states that Emergency Physicians working in Level I or Level II trauma centers must have 10 hours of approved AMA or AOA trauma CME per year.

ULTRASOUND FOR EMERGENCY MEDICINE

- Musculoskeletal
- Foreign Body, Soft Tissue & Ocular

PLUS: 3 hours of video lectures
to review before the course!

Illinois College
of Emergency Physicians

Hands-on workshops for bedside ultrasound in emergency medicine

ICEP presents two interactive course tracks -- attend one or both for maximum practice!

BASIC SKILLS

TARGET AUDIENCE: Physicians with limited or minimal experience, seeking hands-on practice on the most frequently used ultrasound techniques

ADVANCED SKILLS

TARGET AUDIENCE: Physicians with prior ultrasound experience seeking hands-on practice for advanced skills less frequently seen in the emergency department. Prior ultrasound experience or completion of ICEP's Basic Skills session is required for registration

Live models for skills at both course tracks!

Program Objectives

- To perform hands-on principles of basic and advanced emergency bedside ultrasound such as AAA, FAST and cardiac exam
- To demonstrate the use of bedside ultrasound to diagnose acute life-threatening conditions, guide invasive procedures, treat emergency medical conditions, and improve the care of emergency department patients

BASIC SKILLS AGENDA

7:15 am – 7:45 am
Registration & Light Breakfast

7:45 am – 7:50 am
Welcome & Introduction
Robert Rifenburg, DO, RDMS, FACEP

7:50 am – 8:30 am
Video Lecture Review
Robert Rifenburg, DO, RDMS, FACEP
