# Conference Information

## Location & Parking

Northwestern Memorial Hospital (NMH)  
Feinberg Pavillion  
3rd Floor, Conference Room A-D  
251 East Huron Street Chicago, IL 60611

Discounted parking has been arranged for Parking A located at 222 E. Huron. Discount parking tickets will be available at the ICEP registration desk. The rate is \$14 for the first 7 hours or \$29 for up to 24 hours. If Parking A is full the parking attendants will direct you to Parking C/D located at 321 E. Erie. Both lots are pay as you leave and are within walking distance of the Feinberg Pavillion. Discounted parking is only available at Parking A and C/D self-park garages.

*Discount rates will not be honored by any other parking garages.*

**NOTE:** The 222 E Huron garage (A) is extremely busy as more patients are driving than taking public transportation. Parking availability is a lot less than it used to be, plan to spend more time looking for parking.

## Wifi

WiFi access for participants is available on Northwestern Feinberg Pavilion network. No password is needed. Simply select it from your WiFi options and you will automatically connect.

## Evaluation

As a member-driven organization, we count on your input when planning future educational programs. To take the evaluation for Resident Career Day, please head over to <https://www.icep.org/2024rcd>, complete a hard copy at the registration desk, or use the following QR code:

## Career Fair

The Speed Dating Career Fair will be held from 9:00 a.m. to 10:30 a.m. We encourage everyone to attend and take advantage of the opportunity to make career connections, enjoy a light snack, and be entered into a raffle for great prizes.

## Open Forum for Medical Students and PGY1s

A special presentation for medical students and 1st year residents will be held concurrently to the Career Fair in the Conference Center, starting at 9:15 a.m. (Special tables have been reserved for this session across the hall).

Fisher & Paykel Healthcare, a world leader in heated humidification systems, introduces Optiflow™ for Nasal High Flow Therapy. In your Emergency Department, Optiflow™ delivers humidified gas, with or without supplemental oxygen, at flows up to 70 LPM for the treatment of your respiratory compromise patients. Clinical evidence proves that early implementation of Nasal High Flow Therapy, at flows up to 70L/min, can reduce escalation and risk of intubation. Reducing therapy escalation to mechanical ventilation (intubation/NIV) can provide fewer ICU admissions, improved bed flow and reduced ED boarders.
