

ICEP Nominating Committee,

I am excited to submit my interest in re-election to the Board of Directors for the Illinois College of Emergency Physicians.

Serving as a board member over the past three years has been a privilege, and I am eager to continue contributing to ICEP's mission. During my first term, I have remained engaged in key discussions surrounding financial stewardship, personnel matters, and strategic decision-making to support our members and advance emergency medicine in Illinois. Additionally, my participation in the Practice Management and Advocacy Committees has reinforced my commitment to addressing the evolving challenges facing emergency physicians.

Beyond ICEP, I have remained actively involved with ACEP on a national level, representing Illinois emergency physicians at the ACEP Council and participating in the Leadership and Advocacy Conference. My role on the Board of Governors for the ED Accreditation Program (EDAP) has further deepened my understanding of policy and quality initiatives that directly impact emergency departments across the country.

Clinically, I continue to practice as a community-based emergency physician and serve in leadership roles within my medical group and health system. My background in health policy, hospital operations, and business management—combined with frontline clinical experience—positions me to represent a broad range of perspectives that are crucial to our organization.

If re-elected, I will remain committed to strengthening ICEP's advocacy efforts and enhancing outreach to community-based emergency physicians. I appreciate the opportunity to continue serving and look forward to furthering the impact of ICEP.

Sincerely,

Adnan Hussain, MD, FACEP
